ADDITIONAL CUSTOMER AGREEMENT CLAUSE

As a qualified Austin Energy (AE) customer, I understand that the rebate I am applying for will under no circumstances exceed the maximum allowed under the current Solar PV Rebate guidelines. I acknowledge that I am responsible for maintaining the operational efficiency of all qualifying measures for a period of no less than five (5) years from the date of this agreement. I agree to allow an AE Representative to inspect the referenced facility for compliance with this requirement for the duration of this agreement. In consideration of this rebate, I assign all rights to any and all environmental attributes and or credits, including any renewable energy credits, carbon offset credits, or similar environmental credits derived from the renewable energy production associated with this rebate to AE for AE's use as it may choose. A prorated portion of the rebate, calculated by reducing the rebate paid by 20% per year for each of the five years following final inspection and approval (first 20% reduction to occur on the first anniversary date of rebate payment), shall become due and payable to AE if I fail to ensure AE that the rebated equipment is properly maintained and operated at an AE metered address.
